SECURITY EQUIPMENT & PERSONNEL

FireTrack Pro

Every asset. Every handover. Accounted for.

Firearms, equipment, credentials and inspected returns in one clear security workspace.

EXPLORE THE WORKFLOW

CONCEPT VISUAL

Control that survives the next handover.

Give each item, holder and exception a record your next shift can follow.

01

Know who holds it

Connect firearm and equipment serials, holders, expected returns and custody history.

02

Keep credentials visible

Review personnel documents, expiry dates and recorded restrictions together.

03

Trace each handover

Capture issue and return records with signatures and printable receipts.

04

Inspect what comes back

Record condition and defects; follow inspection, repair and release decisions.

05

Reconcile the register

Review ammunition records, outstanding items and associated equipment.

06

Prepare a clearer review

Use QR identification, reviewed imports and register reporting to support supervision.

EIGHT LANGUAGES

English / Afrikaans / isiZulu / isiXhosa / Arabic / Spanish / Portuguese / French

One item.
A complete custody story.

Follow the record from a named holder to a reviewed return.

1. **Identify**
   Find the item and its serial record.
2. **Review**
   Check the person and credential dates.
3. **Issue**
   Record the recipient and expected return.
4. **Inspect**
   Capture condition and any exception.
5. **Resolve**
   Review repair or return to service.

ILLUSTRATIVE RECORDS / FICTIONAL EXAMPLES

01 / EQUIPMENT

Radio 014

Identifier	DEMO-R014
Current holder	Sample officer A
Record	Issue recorded

02 / RETURN REVIEW

Condition recorded

Return	Received for inspection
Observation	Accessory damaged
Next action	Supervisor review

03 / FOLLOW THROUGH

Exception retained

Owner	Sample supervisor
Repair record	Awaiting review
Release decision	Authorised reviewer

The question is simple: can the next supervisor explain who held it and what happened next?

Bring one register. See the difference.

Explore FireTrack with your operations lead, equipment supervisor or personnel manager.

YOUR FIRST EVALUATION

01 **Choose the register**

Use sample assets, personnel and a credential nearing expiry.

02 **Run a full handover**

Follow an issue, a return and one damaged accessory.

03 **Review the evidence**

Locate custody history and compare your register review time.

Measure: time to locate a holder, completeness of return records and unresolved exceptions.

PRACTICAL DETAILS

Offline handovers require online preparation, a local PIN and use within 24 hours. Photos and documents need a connection. Records support authorised procedures and do not certify legal compliance.

Scope, access, support and commercial terms are agreed before rollout. Use fictional or approved sample data in the evaluation.
